

## What's Your ACE Score?

There are 10 types of childhood trauma measured in the ACE Study, and each type of trauma counts as one. The most important thing to remember is that the ACE score is meant as a guideline. If you experienced other types of toxic stress over months or years, then those would likely increase your risk of health consequences.

### Prior to your 18th birthday:

1. Did a parent or other adult in the household often or very often ... Swear at you, insult you, put you down, or humiliate you? OR Act in a way that made you afraid that you might be physically hurt?
